

THE UNITED METHODIST CENTER BOARD OF TRUSTEES

Routine maintenance and operations have been carried out during the year. Repairs were made to stop the leak around the elevator; all exterior window caulking was replaced and mortar joints resealed; downspouts were repositioned to carry the water away from the building when it rains; and vents were installed in the restrooms.

We are thankful to all of those churches that paid their UM Conference Center asking in full, and encourage those that did not to make your contributions during this fiscal year.

Franklin Garrett, Chairperson
