Product	Product Description	Why We Recommend	Price
BroadScreen Criminal & Sex Offender Search	Using the applicant's name and date of birth, Trak-1 Technology queries our national database of over one billion for criminal history, including felonies, misdemeanors, sexual offenses, and where permitted, felony traffic offenses. Also includes a search of Federal watch lists for the Office of Foreign Asset Control (OFAC), the Drug Enforcement Administration (DEA), the Bureau of Alcohol Tobacco Firearms and Explosives (ATF), and Most Wanted lists for the Federal Bureau of Investigation (FBI), the US Secret Service, America's Most Wanted, and the US Marshal's office.	With information compiled from over 370 data-sets, the BroadScreen Criminal & Sex Offender search is recommended as a starting point for any volunteer or employee background search. Because this query is not limited to the state the organization resides in, it provides a national, overarching view of the applicant and will identify criminal activity in areas where the applicant may not permanently reside or may have held past residence. Records returned often include the offense, class level, disposition, sentence, and date of offense.	
Motor Vehicle Report	Using the applicant's name and driver's license number, Trak-1 Technology queries the Department of Motor Vehicles for all motor vehicle records currently on file for the applicant. This may include violations, citations, accidents, and suspensions.	Motor Vehicle Reports are suggested for any applicant with driving privileges on behalf of the organization, whether it be in a personal or company vehicle, on organization property, or for any organization related purpose. The Motor Vehicle Report provides driving history that is currently on file with the Department of Motor Vehicles, which is often a major consideration in insuring company vehicles and drivers.	
Social Security Check	Using the applicant's social security number, Trak-1 Technology queries the applicant's credit header (their vital information such as name, date of birth and address history) to verify that the social security number provided matches to the applicant's name and date of birth. This search does NOT include any review, report or inclusion of actual credit information and the applicant's credit score will not be affected by this search.	The Social Security Check is an important step in conducting a responsible background screen, as it verifies your applicant's identity and provides any aliases the applicant may have used in the past, as well as the three most recently known addresses of residence. This allows Trak-1 Technology to better identify potential criminal records and helps to reveal potentially unreported places of residence where criminal activity may have occurred.	

Recommended Packages

Package	Components	Turnaround Time	Total Price
