

Helping Churches Reopen Amid COVID-19

Finding Masks & Hand Sanitizer

Finding protective gear, disinfecting cleaners and hand-sanitizing products has been challenging. Compare prices and pay attention to reviews to get the best quality for your investment. Partnering with other congregations in your area might allow you to purchase supplies in larger quantities at lower costs. In addition to your local stores, here are some vendors that might be helpful:

- outreach.com – Colorado faith-based organization serving churches by offering printing of signs and other materials, publishing and ideas for outreach ministry. Now offering masks, hand sanitizer and other health and safety products.
- discountmugs.com – Florida promotional products company that is now offering blank items such as masks and hand sanitizer.
- amazon.com – Hand sanitizer, masks and disinfecting products. Shipment might take longer than usual. Pay close attention to pricing, especially when third-party vendors are involved.
- paperhandlingsolutions.com – Supplies wide range of safety and cleaning products to assist churches with surface cleaning, hand sanitizing and social distancing needs. Contact: Lewis Haigler at lhaigler@phsq2.com.
