

Congregational Development/MissionInsite Report

After reviewing the ReligiousInsite report for your church, please answer the following questions and include this report in your 2023 Charge Conference reports. For multi-point charges, complete a separate report for each church. You do **not** need to include the ReligiousInsite Report as part of your charge conference reports.

This is a fillable PDF form. You may add your responses to each question then save a copy to your computer and print copies for your CC reports.

Church Name: _____

Church Address: _____
Street City Zip

Pastor: _____

Directions: Once you log into MissionInsite, enter the address for your church. Select that address from the dropdown menu. Click Next to enter the size of the radius you wish to use. Click Next. Select ReligiousInsite; click Next. On the next screen click Finish.

*Please be **specific** when answering these questions. It's not sufficient to just say something like "same as last year." That does not provide any information for the district or for your church leaders and decision-makers.*

***"Study Area"** relates to the community around your church within the radius you selected when creating your demographic report. Again be specific.*

1. How does your congregation compare to the study area in relation to Beliefs about God?
2. How does your congregation compare to the study area in relation to Beliefs about Jesus?
3. Is your congregation more or less conservative in social and moral values in comparison to the study area?
4. With regard to your answer in question 3, how will knowing this affect your mission and advocacy outreach plans and activities?

5. With regard to Activity in a Religious Congregation or Community, how does your congregation's involvement compare to the study area?
6. What effect will this knowledge have on your mission and advocacy plans and programs?
