Due to the diligence and professionalism of those who serve in the ministry of administration at both the conference and district levels:

- Your church's apportionments are managed with integrity and accuracy, strengthening trust in how funds are used.
- Your pastor is properly credentialed and supported in their vocational journey.
- A safety net benefits churches directly and indirectly in times of crisis or rapid response.
- Conference ministries have a safe, well-maintained space for gatherings, services and coordination of resources.
